Family Services Risk Assessment administered with the following outcome:

DVSI-R (Scale 0 - 28) Actual Score 16 Low Risk: 0 - 4 Moderate Risk: 5 - 10 High Risk: 11 - 28

SRI (Scale 0 - 5) Actual Score 1 High Risk: 2 or more

Note: All levels of risk are for the statistical probability for recidivism or potential danger for the applicant. A score of low risk does not mean that future violence will not occur, and a score of high risk does not necessarily mean that future violence will occur. All cases of intimate partner violence have a potential for increased frequency and/or escalation. This report may be considered by the court, in its discretion, consistent with General Statutes Section 46b-15(b), but does not negate the requirement for proof of the statutory criteria necessary for granting an application for a restraining order.
