DESIGNEE

Examination of Items A, B, D, E, F, & G revealed six (6) fired 9mm Luger caliber cartridge cases.

Further examination of Items A, B, D, E, F, & G revealed they were fired in the same firearm.

Examination of the one (1) fired jacketed hollow point bullet (Item C) revealed it to be 9mm caliber and fired through a firearm barrel rifled with six (6) lands and grooves with a right hand twist.

Further examination of Items A thru G revealed characteristics similar to 9mm Luger caliber, semi-automatic pistols manufactured by Sturm Ruger, however, it is suggested that any 9mm caliber firearm recovered concerning direct investigative leads to this case be forwarded to the Crime Laboratory for comparison with Items A thru G.
